MULTICOLOR

Multicolorböden charakterisieren sich durch relativ starke Farbverläufe auf der Musterfläche. Das Farbspektrum der einzelnen Planken kann hier deutlich von hell bis dunkel variieren. Dadurch bekommen die Multicolorböden eine spannend lebhaft Optik mit höchstem Designanspruch.

Multicolor floors feature relatively strong colour gradients on the motif surface. The colour spectrum of the individual planks can vary considerably here from light to dark. This gives the multicolor floors an excitingly lively appearance combined with the highest design standards.

Les sols multicolores se caractérisent par des motifs d'une amplitude de couleur assez importante sur chaque unité. Le spectre de couleurs des lattes peut de l'une à l'autre varier considérablement en intensité allant du clair au sombre. Cela confère aux sols multicolores un aspect visuel vif et attrayant, conforme aux attentes d'un design haut de gamme.

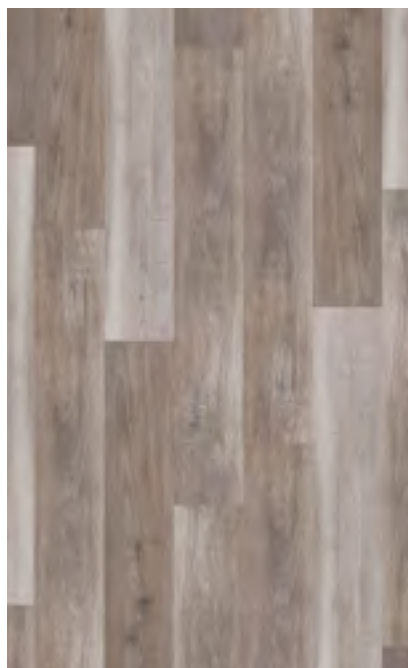

I pavimenti Multicolor sono caratterizzati da gradienti di colore relativamente forti sulla superficie del motivo. Lo spettro dei colori delle singole tavole può variare considerevolmente da chiaro a scuro. Ciò conferisce ai pavimenti Multicolor un aspetto vivace ed eccitante con i più elevati standard di design.
